Subject: Microsoft Settlement

To Whom It May Concern:

I am writing to express my opposition to the proposed settlement in the Microsoft antitrust trial. Any settlement that does not force Microsoft to change their business practices will fail.

Microsoft continues to bundle other applications into their operating systems and does not allow other competing software equal access. The classic case is IE vs Netscape. I am glad to see AOL/Time Warner pursuing this matter in civil court. This predatory practice has been continued and extended with the release of Windows XP. This is the kind of activity that caused the guilty verdict. The proposed settlement does nothing to change this behavior.

A much stronger remedy must be pursued if justice is to be done.

Thank you for your attention to this matter.

Sincerely,

Terry Dutcher
